

## My visit to the vets

On Friday when I came home from school I  
went play with Sally.

She was lying on the grass and every time I went near her she barked at  
me.

I know straight a way to tell mum and dad.

Mum and dad brought Sally to the vets in Elphin.

We had to wait for a half an hour.

Finally we got in.

Sally barked and barked.

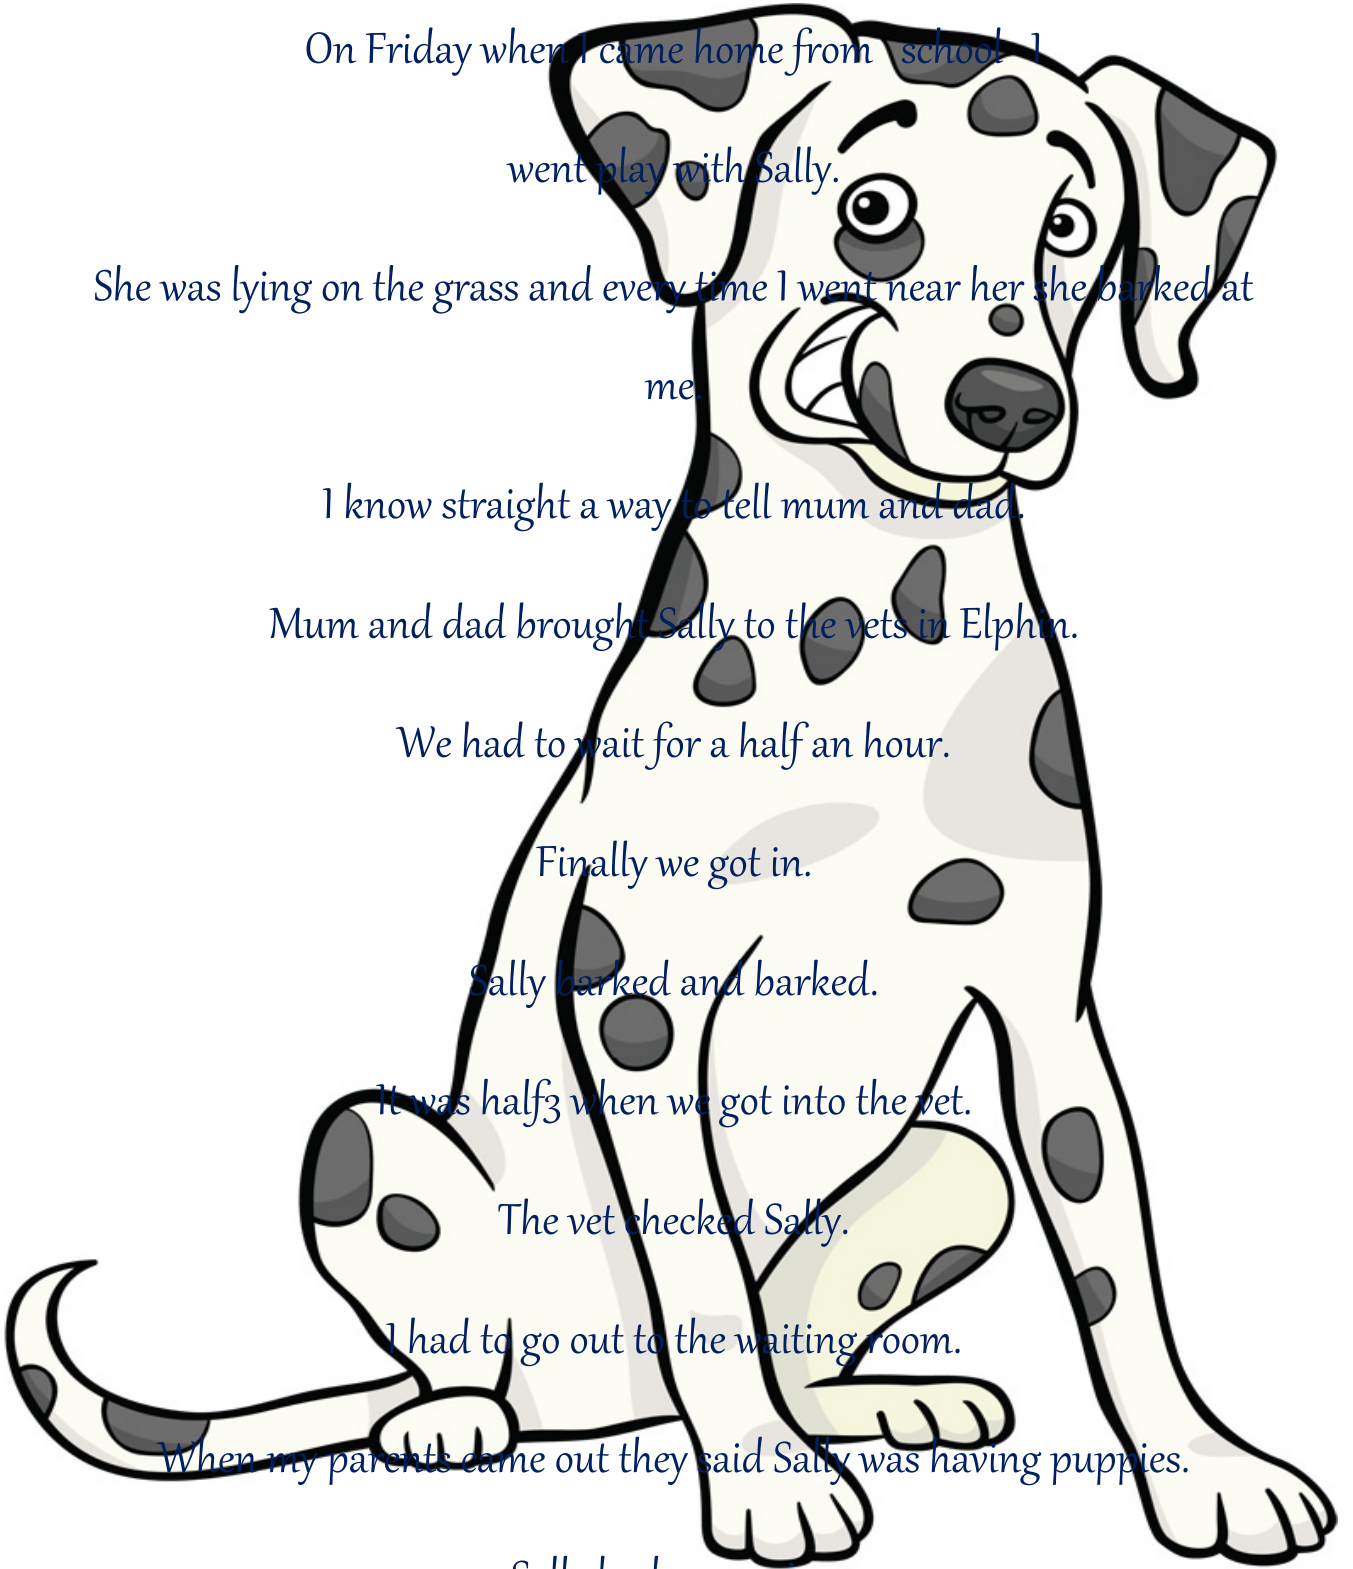

It was half 3 when we got into the vet.

The vet checked Sally.

I had to go out to the waiting room.

When my parents came out they said Sally was having puppies.

Sally had 5 puppies.

We gave away 4 and kept one and called her Ruby.
