

My visit

to the vets

One day I came
home from
school and I
found my dog on

the floor.

When I come

home from

school my dog

always jumps up

on me but now

he didn't]

knew something

was wrong.

I brought my

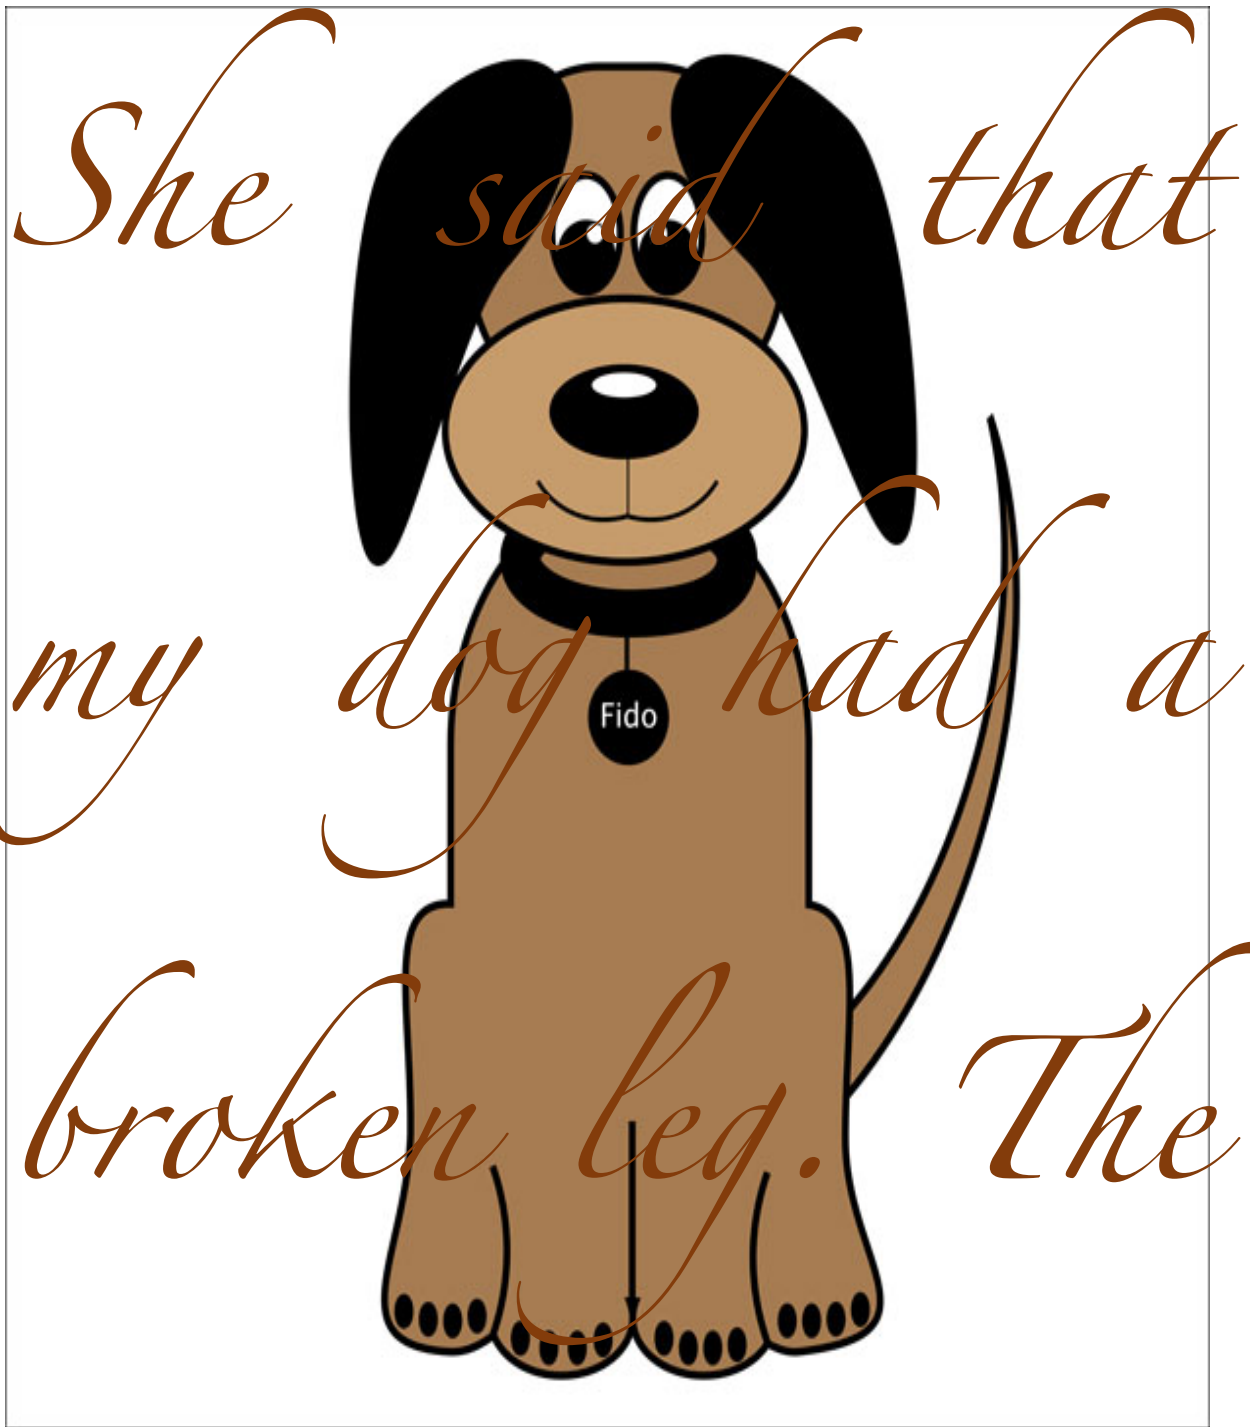

dog so the vets

and the nurse

weighed my

dog.

Then she did
an x-ray on my
dog.

She said that

my dog had a

broken leg. The

nurse put a

case

on my dog's leg.

Later my dog
was better.
